Dear Sylvia, Many thanks for your very helpful notes on Legend and the Epsteinker. If before you leave on your trip to Israel you can learn anything about what lies behind this disinformation, please let me know. It will be beyond me. I'm getting up before 5 every morning, no matter how late I work the previous night. This issue is now joined in court in the appeal of my C.A.75-1448, at appeals No. 77-1831, and the government is disputing it.... It is likely that whatever happens this will again be before the district court, as a new suit or on remand. ...I have not yet read the book because one is supposed to be in the mail and because there are none on sale locally. About the latter I have no complaint. ...Hope you have a wonderful trip. Many thanks, HW 3/22/78
